

SLABS TECH HACKATHON 2026

SLABS TECH HACKATHON 2026

- FREE ONLINE IDEATHONS AND HACKATHONS
- (APRIL – DECEMBER 2026)

Introduction

Hackathons are collaborative technology competitions where students work in teams to design innovative solutions to real-world problems within a limited time. These events help students develop practical skills in programming, teamwork, innovation, and entrepreneurship.

2

This document lists free hackathons and ideathons from April to December 2026 that students can participate in online or hybrid formats. Many events provide mentorship, networking opportunities, certificates, and prizes.

Available Hackathons

NAME	FIELD OR IDEAL STUDENT	TIMELINES	PRIZES
Ideathon 2026	ASD, SE & ITC Students	10 March – 25 April 2026	₹ 45,000
DevNetwork AI + ML Hackathon	ASD & SE Students	11 – 28 May 2026	Non-Cash Prizes
Global AI Hackathon (USAII)	ASD & SE Students	14 – 21 June 2026	\$15,000+
iSAFE Trust & Safety Hackathon	ITC Students OR Cyber Security	April – July 2026	\$20,000 & Internship Opportunities
DevonomicsV1	ASD & SE Students	4 – 11 June 2026	Non –Cash Prize, Certificate granted to best project
DeveloperWeek Global Hackathon	ASD & SE Students	Throughout 2026	\$23 000 +

1. Ideathon 2026

Description: Students submit innovative ideas and prototype plans that address real-world problems.

Registration Link: <https://ideathone-2026.devpost.com/>

4

Here's everything you need to know about this exciting ideathon:

- ⚠️ MUST use ASI-1 in their idea (even if just planning how ASI-1 would be integrated)
- ⚠️ MUST complete [registration form](#) before starting
- ⚠️ Document all ASI-1 interactions - show how AI helped shape their idea
- ⚠️ No offensive or harmful content

Note: ASI - the world's first Web3-native Large Language Model (LLM) designed specifically for agentic AI.

Requirements:

What You'll Get

5

1. Step-by-Step Participation Guide

A complete walkthrough for participants from registration to submission, including:

- Clear timeline (Feb 14 - March 15, 2026)
- 8-step process: Register → Identify Problem → Brainstorm with ASI-1 → Develop Idea → Create README → Prepare Submission → Review → Submit
- How to effectively use ASI-1 for research, ideation, planning, and documentation
- Team guidelines (1-4 members)
- Evaluation criteria (Problem Relevance, Innovation, ASI-1 Integration, Feasibility, Documentation)
- Pro tips for success

2. Comprehensive README Template

A detailed submission template with 13 sections:

- Overview & Project Summary
- Problem Statement (with current solutions & limitations)
- Solution Overview & Unique Value Proposition
- ASI-1 Integration (capabilities, API endpoints, data flow, prompt strategy)
- Implementation Roadmap (5 phases with milestones)
- Technical Architecture & Technology Stack
- Key Features (with ASI-1 role for each)
- Target Users & Market Size
- Impact & Benefits (Social, Economic, Environmental)
- Challenges & Mitigation (with ASI-1's role)
- Future Scope
- Team Information
- References & Resources
- Submission Checklist

Key Highlights for Participants What They Need to Submit:

7

- Complete README file (main submission document)
- GitHub repository (can be a template/structure repo)
- Problem statement clearly defined
- Solution approach with ASI-1 integration plan
- Implementation roadmap with milestones
- Optional: Demo mockups, wireframes, or concept diagrams

Event Details

8

- Event Type: Ideathon (Online)
- Duration: March 10 to April 25, 2026
- Judging Period: April 25-30, 2026
- Winners Announcement: April 30, 2026

Prizes ₹ 45,000 in prizes

9

Winners	Prize
1st Prize	₹ 20,000 in cash
2nd Prize	₹ 15,000 in cash
3rd Prize	₹ 10,000 in cash

2. DevNetwork AI + ML Hackathon

Type: Online / Hybrid Hackathon

Dates: 11 – 28 May 2026

10

Description: Participants develop applications using Artificial Intelligence and Machine Learning.

Registration Link: <https://devnetwork-ai-ml-hack-2026.devpost.com/>

Join the largest challenge-driven in-person & online hackathon, co-located with AI DevSummit 2026!

Details:

This hackathon regularly attract over 300+ participants -- and inviting the international developer community to converge in-person & online this year for the DevNetwork [AI + ML] Hackathon 2026!

In Person & Awards - South San Francisco Conference Center - May 27-28, 2026

Online - May 11 - May 28, 2026

1. Create a DevPost account and click Register on the DevPost DevNetwork [AI + ML] Hackathon 2026 page.
2. DevNetwork Hackathon: AI/ML 2026 Hackathon Kicks off May 11, 2026!

Check out the full DevNetwork [AI + ML] Hackathon 2026 schedule!

3. Review full Hackathon Instructions [here!](#)

Requirements:

View the Full Set of Instructions [here!](#)

12

- This is an in-person & online hackathon. Teams will be formed on Devpost.com at the DevNetwork [AI + ML] Hackathon 2026. From Devpost, participants can message each other to form teams, participate in chat boards, and communicate with sponsors.
- Teams can build apps from scratch (Mobile App / Web App).
- Teams can solve no challenges (build whatever you want) or can submit to as many challenges as they want.
- There will be two rounds of judging. During Round 1, judges will review all team projects and fill out a scoring sheet on each to determine the Overall Hackathon Winner. Round 2 is the Sponsor Round of judging. Each sponsor will judge the teams working on their Challenge(s) and determine a winner(s). The sponsors choose their own prize winners.
- Round 1 judging will be based on: 1) PROGRESS: How much progress you make on your submission; 2) CONCEPT: Does your submission solve a real problem?; and 3) FEASIBILITY: Could your submission grow/evolve to become a startup or be a profitable business.

Prizes

5 non-cash prizes

- DevNetwork [AI + ML] Hackathon 2026 Overall Winner

1 winner

1st Place Prize:

- Amazon Echos (Up to 5)
 - DevNetwork Premium All-Access Passes to all 2026 conferences -
- Announcement in our email to 60,000 subscribers listing your team and project

Judge:
Geoffrey
Domoracki
Founder @
DevNetwork

Judging Criteria:

- **Progress**
How much progress did you make?
- **Concept**
Does it solve a real problem?
- **Feasibility**
Could this become a startup or company?

3. Global AI Hackathon (USAII)

Type: Virtual Hackathon

Dates: 14 – 21 June 2026

15

Description: Students collaborate to build AI-powered solutions to global challenges.

Registration Link: <https://www.eventbrite.com/e/usaiis-global-free-ai-hackathon-2026-virtual-student-competition-tickets-1984189543337>

Overview:

16

Join USAII's Global Free AI Hackathon 2026 — a virtual competition for students to build real-world AI solutions, compete globally.

USAII® Free Global AI Hackathon 2026 is here

Free Pre-registration is NOW OPEN for the USAII® Global Free AI Hackathon 2026, where students from high school to graduate level build real-world AI solutions that matter.

What You'll Get:

17

- Collaborate with peers globally
- Mentorship and guided support
- Hands-on AI experience
- **US \$15,000+** total prize pool
- Global recognition and portfolio-building opportunities

Hackathon Dates:

- College/Graduate and Doctoral Students: June 14–21, 2026
- High School Students (Grades 9–12): June 20–21, 2026

What's at Stake? **Cash prizes, scholarships, and recognition** for Best Design, Best Technical Project, Best Pitch & more.

This is more than a competition; it's your launchpad into the AI workforce of tomorrow.

Free Pre-Register Today: <https://bit.ly/4tFqg4S>

4. iSAFE Trust & Safety Hackathon

Type: Online Hackathon

Dates: April – July 2026

Description: Participants develop solutions for cybersecurity, online safety, and digital trust.

Registration Link: <https://www.cyberchallenge.net>

5. DevonomicsV1

Type: Online Hackathon

Dates: June 2026

20

Description: Create tech solutions to real-world financial and economic problems.

Registration Link: https://devonomicsv1.devpost.com/?ref_feature=challenge&ref_medium=discover

6. DeveloperWeek Global Hackathon

Type: Online / Hybrid Hackathon

Dates: Throughout 2026

21

Description: One of the largest global hackathons where developers build web or mobile applications to solve real-world problems.

Registration Link: <https://developerweek-2026-hackathon.devpost.com/>

Join the largest challenge-driven in-person & online hackathon, co-located with DeveloperWeek 2026!

Details:

In Person & Awards - San Jose Convention Center - 18-20 February 2026

Online - Feb 2 - Feb 20, 2026

1. Create a DevPost account and click Register on the DevPost DeveloperWeek 2026 Hackathon page.

2. DeveloperWeek 2026 Hackathon Kicks off February 2, 2026!

[Watch the Kick Off Talks here.](#)
